

Radio Signal Modelers Flying Club
March 2010 Newsletter
March 1, 2010

The March 2010 meeting was called to order by President Mike Meitus at the Strictly RC basement location at 7pm. Secretary Ted Noncek read the minutes of the February 2009 meeting which were approved by the club. There were 17 members and one guest in attendance.

Treasurer's Report

Treasurer Terry Gombert presented the Treasurer's report. The club started February 2009 with a beginning cash balance of \$1,230. During the month the club collected dues of \$150 and had no expenditures. At the end of the month the club cash balance was \$1,380. The Treasurer's report was approved by the club.

President's Message

President Mike discussed that he had not been at the field lately in the final month of snow, but was pleased to hear from VP Mike that nothing had been vandalized during the off season. The wind sock needs replacement and will be replaced soon with an inexpensive wind sock. Anyone wishing to donate one should let Mike know.

A discussion was had on the idea of having the Forest Preserve District cut the trees in the north east corner of the field. Many thoughts were proposed in how to get the FPD interested in cutting the trees, including pulling more permits for fun fly type events to show revenue to the District for the flying field. Steve Shultz volunteered to go to Lake and Harlem to the District office to apply for permits for the fun fly this summer.

Amending Bylaws/Incorporation

Nothing was discussed on this project at the meeting. To be discussed at a later date.

Flight Instructors Committee

No new report at the meeting, to be discussed at a later meeting.

Father's Day Fun Fly Date Set

Steve Schultz discussed the idea of a Father's Day Fun Fly on June 19th. The club accepted the idea and has set the date for June 19th. We expect to have a fun fly event like last year, with a club picnic and prizes.

February Program/Show and Tell

Don Zeller showed the club his new Cap 232 project. Don won the craft at last year's fun fly and he expects to put an OS 46 into the Cap. Nice winter project Don. Next Sabatian showed the club a ducted fan jet that he said should go 120 m.p.h. Sabatian installed a cool looking red light set up that looks like exhaust flames. Watch out for this speedster at the field this spring!

Next Meeting—Monday, April 5th at Strictly RC at 7pm The next meeting will take place at 7pm at the Strictly RC basement on Monday, April 5th. By Ted Noncek, Secretary (tnoncek@sbcglobal.net)
